_____

Witnessed on this _____ day of _____ 20___

_____
Signature of 2nd Witness

Guiding Notes:

1. **Approach to Bequests:** A personal letter from the SABMR board or founder is an effective way to introduce the concept of a bequest. Terminology varies by region; consider using "legacy," "inheritance," "endowment," "estate," "heritage," "settlement," "provision," "benefaction," "gift," "present," "contribution," or "donation" as alternatives to "bequest," depending on the SABMR target audience.
2. **Soliciting Bequests:** Initially, approach inner circle supporters/friends, requesting they consider allocating a small percentage (e.g., 1%) of their estate to SABMR. Expand the request after gathering feedback.
3. **Codicil Attachment:** Provide the above codicil document that can be easily attached to an existing will.
4. **Legal Information Paragraph:** Include a paragraph with SABMR's legal name (for Europe, USA, and South Africa), attach relevant NPO and CIPC organisation registration documentation.
5. **Use of Funds:** Clearly explain how the funds will be used broadly, for example to support Donor Recruitment, the Patient Assistance Program, Training and or Research.
6. **Dissolution Clause:** Specify what will happen to the funds if SABMR disbands, e.g., they will be transferred to a like-minded organisation with a similar vision and mission.
7. **Donor Benefits:** Outline any benefits to the donor, such as SABMR honorary membership, or Legacy Listing.
8. Before finalising any charitable plans, donors should seek counsel from their legal or financial advisor. SABMR should not offer to create a codicil for a donor, as it is not in the business of providing legal or tax advisory services, but you can provide the above template to the donor.
